Please defend the rights of artists and respect copyright law and help to prevent theft.

Artists depend on the income from the sales of their books and artwork to make a living. Misuse creates hardships for the artists that produce the pages you love to color. Sharing of the colored pages in this book is strictly forbidden, both by copying them for someone else, and posting uncolored pages on social media. The only exception is made for reviewers.

If you are posting a review and including pages of the uncolored line art pages, please lay a pencil across each image. If in doubt always contact the artist.

You, the Colorist, are very welcome and encouraged to share your own finished coloring pages, and it is kindly requested that you list the website as the source if you do. Thank you for your understanding, assistance and educating others in this matter.

I've read the above guidelines and agree to them.
